CHOOSE THE BEST FOR YOUR BUSINESS...

When it comes to the world's most efficient vacuum cleaners Pacvac's back pack vacuums have the measure on all other vacuum cleaners. Independent testing by the ISSA tested how long it took the different types of vacuum cleaners to clean 93 square metres.

The statistics from the test are as follows:

Carpet Surface Vacuumed with:	m ²	Minutes	m ² per hr
Back Pack Vacuum & 12" Carpet Tool	93	8.25	676
Tank/Canister Vacuum & 12" Carpet Tool	93	24.00	232
12" Upright Vacuum Cleaner	93	26.80	208

The results are clear. Back pack vacuum cleaners have a much higher level of efficiency than canister and upright vacuum cleaners.
